Ashcraft, D. (2015). *Personality theories workbook, 6th ed.* Belmont, CA: Wadsworth/Thompson. (AVAILABLE ON RESERVE AT THE LIBRARY)

C. ASSIGNMENTS AND GRADING

1. Personality Theories Workbook and Case Study - 15% of final grade

This assignment comes from the Personality Theories Workbook (recommended text, also found on reserve at the library). Students will be assigned a case study in which they will be required to apply the material from the textbook and lectures to demonstrate the ability to apply the theories of personality to a particular individual. The case study assignment must be typed, double-spaced, using 12 point font, and approximately 5-6 pages in length (excluding cover and reference pages). More details on the assignment will be handed out in class.

2. Midterm Examination – 30% of final grade

Students will be given a midterm examination covering material from lectures and textbook. The test will be in various formats, including multiple choice, true/false, short answer and essay type questions, to assess the student's ability to define, describe, compare, contrast, and apply the different personality theories and concepts. The exam will be 30% of final grade

3. Personality Disorder Research Paper & Presentation – 40% of final grade

Students will select a Personality Disorder as found in the DSM-V and write a 10-12 page paper that integrates lecture and textbook materials with current research on the symptoms, etiology, development, and treatment for counseling. Students must include a critical reflection on how a Christian worldview informs and shapes their understanding of personality disorders and therapeutic process. Paper is worth 35% of final grade

A three page summary of your research will be presented to the class in a conference style setting (during one of the three final weeks of the semester). More details of the paper and the presentation will be given in class. Presentation is worth 5% of final grade

4. Personality and the Counselor – 15% of final grade

This assignment is a 5-7 page paper (typed, double-spaced, 12 point font, APA style). Each student will write a paper about his/her own personality and personality development, using the various theories discussed in class. In this paper, the following areas are to be addressed:

- a. Beginning with the Trait-Dispositional perspective of personality (Temperament, 16PF, Five Factor), identify and describe your **significant** personality traits, including any Personality Signatures.
- b. Drawing upon at least 3 major current theories of personality (as covered in the text and lectures), provide a critical analysis of how you understand these to integrate and apply to your own personality development (specific concepts, constructs, and principles from these theories must be identified, defined, and critically applied to your own personality). Include tangible examples of how your personality is evidenced in your patterns of thinking, feeling, behaving, relating. Include a reflection on how your Christian faith and identity also integrates with your personality and spiritual formation
- c. Discuss how your personality will influence and shape your role as a counselor. Include any strengths, limitations, biases, challenges, potential issues of countertransference that may be experienced in the counseling relationship.

Student involvement in this process is critical to enhance the general quality of teaching and learning.

Before the end of the course, students will receive a MyTyndale email with a link to the online course evaluation. The link can also be found in the left column on the course page. The evaluation period is 2 weeks; after the evaluation period has ended, it cannot be reopened.
