Diaspora Leadership Training

One of the exciting developments in contemporary church planting in the Canadian context is the growth of immigrant churches in urban centres like Toronto. The challenge facing immigrant church leaders is to find leadership training that is accessible, affordable and recognized for credentialing in order to serve in pastoral ministry within their church affiliation.

TIM Centre, in partnership with FORGE Canada, will be launching an 8 course 2 year Diploma program designed to equip spiritual leaders of character, care and competence. We desire to see these leaders multiply missional, metropolitan and intentionally intercultural churches within the Canadian context.
